

# THE BEST CASE FOR ORGANIZATION

COMPLETE OR CUSTOM – YOU PICK

## BUILD THE SET YOU WANT

### 1 CHOOSE PRE-FILLED OR EMPTY CASE

### 2 CHOOSE DESIRED CLIPS

### 3 INSERT AND SWAP CLIPS

#### Easily Accessible

The Custom Case System is designed to be the most straightforward approach to bit organization. The tilt-in/tilt-out mechanism makes it easier to get the bits in and out of the clip.

#### Durable and Secure

The case features rubber bumpers to make it more durable. It features a secure latch clip to ensure that the case is closed. It's built to stand up to the toughest jobsite conditions.

#### Customizable Convenience

This innovative bit system allows you to customize configurations, providing flexibility, efficiency and quick access. Take only the bits needed for a job, instead of the whole tackle box.

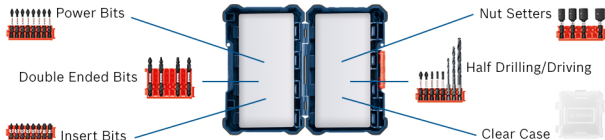

#### Best Case for the Best Bits

The Impact Tough™ driver bits include an Xtended Torsion Zone, which absorbs torque peaks to reduce breakage. The Impact Tough™ drill bits provide impact-rated shanks and tough construction.

## COMPLETE OR CUSTOM—YOU PICK
